前言

全民健康保險自民國 84 年 3 月起實施，「全民納保、平等就醫」的主要政策目標正式實現。全民健康保險係屬社會保險的性質，而全民健康保險的實施也本著「社會互助」的精神，對失業人口、貧困家庭、受災戶等，提供各項紓困措施，以確保弱勢族群就醫權益，當面對經濟不景氣之際，實已發揮安定社會、穩定人心的力量。

全民健康保險係以（一）全民納保、公平就醫，（二）財務平衡、永續經營，（三）凝聚社會共識、確保就醫權益，（四）提升醫療品質、促進國民健康為目標；在全民健康保險自助互助、共同分擔風險的基本原則下，大幅降低民眾就醫財務障礙，發生生育、疾病及傷害事故時，提供醫療給付，保障被保險人及其眷屬享有門診、住院、居家照護、社區復健及安寧療護等完整的醫療照顧。

二代健保自民國 102 年 1 月 1 日正式上路，健保過去面對多重挑戰，包括財務危機、醫療資訊不夠透明、民眾參與不足及醫療資源浪費等，藉由二代健保修法提出多項改革措施，包括財務平衡的收支連動機制、提升政府財務責任、加強照顧弱勢族群、揭露醫療品質資訊、公開財務報表，擴大民眾參與、落實人人有保的多元支付制度等改革，確保健保的永續經營。此外，更強化對弱勢族群及偏遠地區民眾的醫療照護服務內涵，也促成醫療院所公開醫療品質及財務報表資訊。另考量矯正機關收容人的健康權，亦將其納入健保。透過二代健保的實施，以「提升品質、關懷弱勢、健保永續、國際標竿」為願景，持續提供全體國民健全的醫療服務，並落實「人人有保，就醫公平」的目標。

全民健康保險為我國社會安全制度中最重要的一環，深為全體社會大眾所關注；本署（原行政院衛生署中央健康保險局）為增進各界對全民健康保險的瞭解，爰自民國 84 年開辦年度起，每年編印「全民健康保險統計」，供各界參考。本年報內容分為統計摘要及分析與統計表兩部分，其中統計摘要及分析包含 109 年全民健保統計摘要、全民健保主要指標與統計分析；統計表部分則分為時間數列統計與 109 年當年統計 2 大類。另為響應節能減碳政策，將 109 年當年統計表收錄於電子光碟版。

本年報資料蒐集極為龐博，電子資料處理作業雖逐年改善，惟社經環境快速變遷，年報內容仍難免有所不周，尚祈各界先進不吝賜教，以作為未來改進之參考。

Preface

Taiwan's National Health Insurance program was implemented in March 1995. Since then, the program's initial goal of universal participation and equal-opportunity medical care was fulfilled. National Health Insurance falls under the category of social insurance, and the national insurance program is implemented in the spirit of mutual social assistance. It provides several measures to protect the unemployed, the poor, and victims of disasters. Moreover, by safeguarding the right of the underprivileged to have access to medical care, the program maintains social order and provides security during times of economic uncertainty.

Four objectives are stressed in the National Health Insurance program's implementation: (1) universal coverage and equal access to health care; (2) financial balance and long-term sustainability; (3) bringing about social consensus that guarantees the right to medical treatment; (4) better medical care quality and better health for all citizens. On the basis of principles of self-help/mutual-help and risk-sharing, the NHI greatly reduces financial burdens on the general public. The NHI renders medical benefits to the insured and their dependents in times of illness, injury, and childbirth, thus ensuring that all people enjoy comprehensive healthcare that includes outpatient services, hospitalization, home care, community rehabilitation, and hospice care.

The second-generation National Health Insurance was implemented on January 1, 2013. The NHI system has faced several challenges in the past, including financial crisis, inadequate information transparency, uneven levels of participation by the public and overutilization. The revisions to the National Health Insurance Act that created the second-generation system introduced several reforms to address these issues. Among them: setting up a mechanism to balance revenues and expenditures; imposing more responsibility on the government for the system's finances; enhancing care for the disadvantaged; encouraging providers to disclose information on medical quality; expanding public participation; and establishing diversified payment systems to ensure universal access to care. The second-generation system will not only spread the insurance premium burden more fairly, it will also adopt a mechanism that automatically links between revenues and expenditures, an important step in ensuring the health insurance program's sustainability. It also strengthens the medical services available to disadvantaged groups and residents of remote areas of the country. As for information transparency, the new system encourages health care institutions to release information on medical quality and their financial statements to the public. Another one of the reforms is to grant the right to health care of inmates at correctional facilities and cover them under the NHI program. The second-generation reform, which aspires to "improve quality, care for the disadvantaged, ensure the health insurance system's sustainability, and set an international benchmark," will continue to provide Taiwan's residents with comprehensive medical services and equal access to care.

As a key component of the ROC's social security system, NHI is a program that deeply concerns the general public. To promote widespread public understanding of the NHI program, the NHIA (formerly the BNHI) compiles and publishes a yearly 'National Health Insurance Annual Statistical Report' for the reference of interested parties in all sectors (the first Report was issued in 1995, the year of NHI's inception). The 2020 Report is divided into two parts, namely, (1) abstract and statistical analysis and (2) statistical tables. The abstract and statistical analysis includes the main ideas of NHI statistics and the related analysis for 2020; the statistical tables are comprised of two parts, namely, the time series statistics and statistics 2020. The statistics 2020 were published electronically to conserve energy and reduce carbon emissions.

（四）醫療給付

全民健康保險自 91 年 7 月起全面實施醫療費用總額預算支付制度，在各部門總額之下，仍以論服務量計酬為主，並逐步推動「論病例計酬」及「論質計酬」，以提升醫療服務品質，促進國民健康。另為提升醫療服務效率，使民眾獲得更完整之全人照顧，自 99 年 1 月起實施全民健康保險住院診斷關聯群(Taiwan Diagnosis Related Groups，Tw-DRGs）支付制度，並於 103 年 7 月起實施第 2 階段 Tw-DRGs。

依「全民健康保險醫療費用申報與核付及醫療服務審查辦法」規定，保險醫事服務機構當月份之醫療服務案件費用申報，應於次月 20 日前為之。採電子資料申報者，得分 1 日至 15 日及 16 日至月底兩段為之。採網路或電磁紀錄申報者，並應於次月 5 日及 20 日前，檢送醫療費用申報表單。住院案件之申報依「特約醫事服務機構住院醫療費用點數申報格式及填表說明」規定，除特殊案件外，其醫療費用每次申報日數上限為 92 日（含），不足 92 日之案件，於出院時一次申報。

保險醫事服務機構於規定期限內申報，且無文件不完整或填報錯誤者，保險人應於收到文件之日起依期限辦理暫付事宜，並於 60 日內核定，屆時未能核定者，應先行全額暫付。保險醫事服務機構對醫療服務案件審查結果有異議時，得於保險人通知到達日起 60 日內申復，保險人應於受理申復文件之日起 60 日內核定。保險醫事服務機構對申復結果仍有異議者，得依全民健康保險爭議事項審議辦法規定，向全民健康保險爭議審議會申請審議。

2. Financial Status

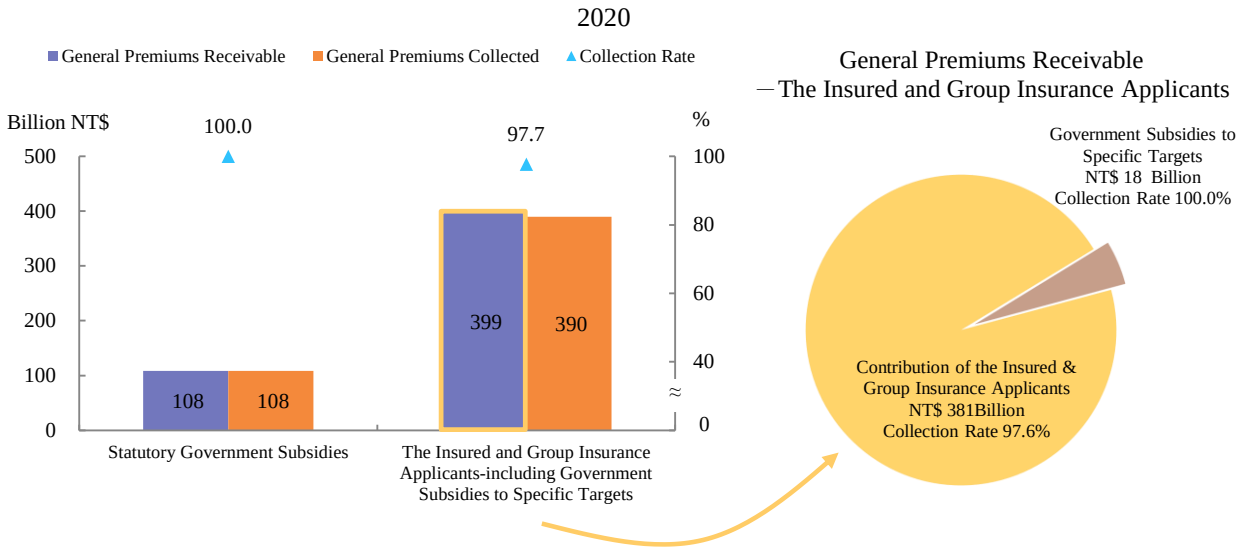
The main source of revenue for the National Health Insurance program is premium revenue, which is contributed collectively by beneficiaries, group insurance applicants, and the government. Factors such as aging of the overall domestic population, introduction of new medical technologies, enhanced care for severely ill patients, and improved healthcare quality have all led to substantial increases in medical expenditures. To reduce the financial deficit, the NHIA has continued to implement various measures for broadening the program's sources of income and decreasing expenditure, including the adoption of the second-generation NHI system on January 1, 2013. Under the new system, supplementary premiums are now collected on six types of income not previously included in premium calculations, and the minimum rate of government contribution is now clearly specified. All of these measures serve to stabilize NHI's finances and to ensure the program's long-term sustainability.

(1) Premium Collection

i. General premiums receivable were NT$508 billion, with a collection rate of 98.2%.

General premiums receivable totaled NT$508 billion in 2020, while general premiums collected totaled NT$498 billion. The total collection rate was 98.2%.General premiums receivable from the insured and group insurance applicants totaled NT$399 billion (NT$18 billion was from government subsidies to specific targets), NT$390 billion was collected (NT$18 billion was from government subsidies to specific targets), for a collection rate of 97.7%. General premiums receivable from the government (statutory government subsidies) totaled NT$108 billion, and NT$108 billion was collected, for a collection rate 100.0%.

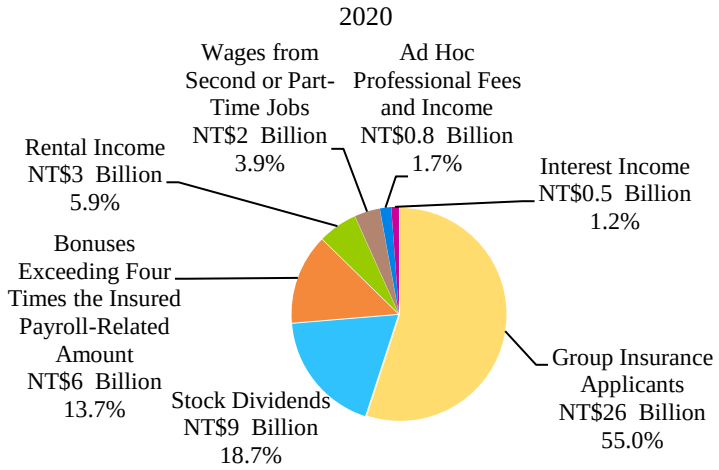
Figure 8 General Premiums



ii. Supplementary premiums totaled NT$47 billion.

Supplementary premiums totaled NT$47 billion in 2020. NT$26 billion came from group insurance applicants and NT$21 billion from the beneficiaries. The latter included NT$9 billion for stock dividends, NT$6 billion for bonuses exceeding four times the insured payroll-related amount, NT$3 billion for rental income, NT$2 billion for wages from second or part-time jobs, NT$0.8 billion for ad hoc professional fees and income and NT$0.5 billion for interest income.

Figure 9 Supplementary Premiums



iii. Delinquency charges receivable totaled NT$197 million, with a collection rate of 73.9%.

Group insurance applicants, beneficiaries and premium withholder should pay delinquency charges in the case where they pay late premiums. Delinquency charges receivable totaled NT$197 million in 2020, NT$145 million was collected, for a collection rate of 73.9%. Of which, the delinquency charges receivable of general premiums totaled NT$169 million, NT$129 million was collected, for a collection rate of 76.2%. The delinquency charges receivable of supplementary premiums totaled NT$27 million, NT$16 million was collected, for a collection rate of 59.6%.

(2) Financial Income and Expenditure

On an accrual basis, the deficit was NT$68 billion.

An overview of financial income and expenditure shows that, on an accrual basis, insurance revenues totaled NT$633 billion in 2020, an increase of 0.9% from the previous year. The average annual increase in the most recent decade was 3.1%. Of which premium revenues were NT$615 billion or 97.1%, being the largest proportion of insurance revenues. Insurance costs totaled NT$700 billion, an increase of 5.9% from the previous year. The average annual increase in the most recent decade was 4.6%. Of which medical benefits were NT$695 billion or 99.2%, being the largest proportion of insurance costs. The deficit was NT$68 billion, which was offset using the reserve fund pursuant to law. Therefore the reserve fund accumulated balance in 2020 was NT$109 billion.

(3) Management of Contracted Medical Care Institutions

Since its establishment, the NHIA has been supervising contracted medical care institutions to maintain the quality of the medical service for beneficiaries. In addition, the NHIA also strengthens violation reviews and manages abnormal activities according to the "Regulations Governing Contracting and Management of National Health Insurance Medical Care Institutions". The reviews focus on severe violations such as fraud that falsely claims insurance benefits. When appropriate, the NHIA assists related judicial authorities in the investigation of serious offenses committed by contracted medical care institutions.

207 cases were found to have committed violations in contracted medical care institutions; the most (80 cases) were penalized with penalties.

In 2020, 207 cases were found to have committed violations in contracted medical care institutions, a decrease of 65 cases (23.9%) from the previous year. Of which, the largest group of violators consisted of medical care institutions that were penalized with penalties (80 cases), 62 were penalized with suspension of contract, 46 were penalized with corrections, and 19 were penalized with termination of contract.

4. Medical Benefits

The National Health Insurance System has comprehensively implemented a global budget payment system on medical expenses since July 2002. The medical benefits under the global budget payment system are paid primarily on the basis of service volume. To elevate the quality of healthcare services and promote better health, the NHIA gradually additionally introduced the “Case Payment” and “Pay for Performance” systems. Furthermore, to improve the effectiveness of healthcare services and provide complete holistic care, the NHIA implemented the Tw-DRGs (Taiwan Diagnosis Related Groups) payment system in January 2010, followed by a second stage of the program, which has been in effect since July 2014.

According to the “Regulations Governing Declaration and Payment of Medical Expenses and Examination of Medical Care Services for National Health Insurance”, monthly medical expense applications of cases serviced by a contracted medical care institution should be submitted by the 20th of the month following the service. Electronic applications are divided in two periods: from the 1st to the 15th of the month and from the 16th to the end of the month. Relevant documents (summary reports) should be submitted by the 5th and the 20th of the following month when applying online or via electronic media. Reporting of hospitalizations is handled as per the “Reporting Format and Form Completion Instructions for Contracted Medical Care Institution Inpatient Expenses”. Except in unusual circumstances, a maximum of 92 days (inclusive) can be reported at one time for medical expenses. In cases where hospitalization was less than 92 days, reporting should be done as one lump sum at time of discharge.

The contracted medical care institutions should complete filing within the specified period. For institutions that have left no incomplete applications or errors therein, the insurer should process the provisional payments within the specified time limit after having received the documents and should deliver the reviewed results within 60 days. If the results cannot be delivered on time, a provisional payment of the full amount should be made. Any disagreement with the review results of the medical services raised by the contracted medical care institutions may be disputed within 60 days from the arrival of the notice from the insurer. The insurer should review the disputed cases within 60 days of receiving such complaints. If a contracted medical care institution disagrees with the disputed results, it may apply to the National Health Insurance Dispute Mediation Committee for a second review pursuant to the “National Health Insurance Dispute Mediation Regulations”.

6. Floating Point Value = (Budget for the quarter - approved non-floating points for general services - reimbursement of advanced payments)/Approved floating points for general services.

Average Point Value = Budget for the quarter/ (Approved non-floating points for general services + Approved floating points for general services + reimbursement of advanced payments).

For dentistry (before 2007) and physician clinics, the global budget for the current quarter has included the additional expenses incurred from new areas applicable to the "Separation of Prescription and Dispensing" policy.

2.醫療點數＝申請點數＋部分負擔（為利於統計本表，部分負擔1元以1點計）。

3.縣市別資料係依特約醫事服務機構所在縣市統計。

2. Medical Points=Requested Points+Copayment (Copayment NT$1 is regarded as 1 point when calculating medical points).

3. "Locale" in this table means the seat of the contracted medical care institutions.

4. Figures for Taoyuan City include Taipei Chang-Gung hospital.
