ASUS VivoWatch 6

Stay in Touch with Your Wellness

The world's first smart watch that can detect **Blood Pressure** and **Electrocardiogram** by fingertip

One Touch Measurement
Accurate health information at your fingertips

ASUS's exclusive design captures physiological signals from your fingertips, offering on-demand measurements for more precise and reliable health data.

- Blood Pressure
- ECG
- Body Composition
- Pulse Transit Time
- SpO2
- Heart Rate
- Relaxation Index
- Sleep Tracking
- Temperature
- Exercise
- Weather Forecast
- Dual GPS

New Feature

Body Composition
Tracking your progress. Analyzing water content, fat percentage, skeletal muscle mass, and basal metabolic rate.

Stay with you Longer

Up to **14** days of battery life
9 days with typical usage
14 days in power saving mode

Multisensors on Different Sides
On demand measurement, anytime anywhere

Back Sensor
Automatically measures vitals throughout the day, even while you sleep

Side Sensor
Placing your fingertips on the sensor, check your vital health stats conveniently in real time

- BIA sensor
- ECG sensor
- PPG sensor

Multi-sensor Design

Support
ASUS Blood Pressure & Electrocardiogram Software
as a Medical Device

Track As You Exercise

Dual-Frequency GPS

... your health journey, at a glance
...US HealthConnect App

...Watch-exclusive
App collates collected data and presents it in easy-to-read charts and graphs. Enable you to easily access digital health data in the clinic for your physician to review.
